

BENEFITS

• Manage accounts more effectively

If you entered a General Ledger item with incorrect information and released it into Dynamics™ SL, GL Eraser will make it easy to remove the entry so that you can re-enter it.

• Save time and money

GL Eraser saves you from having to enter adjusting entries to remove the in-correct batch or item in the system.

• Process your information easily

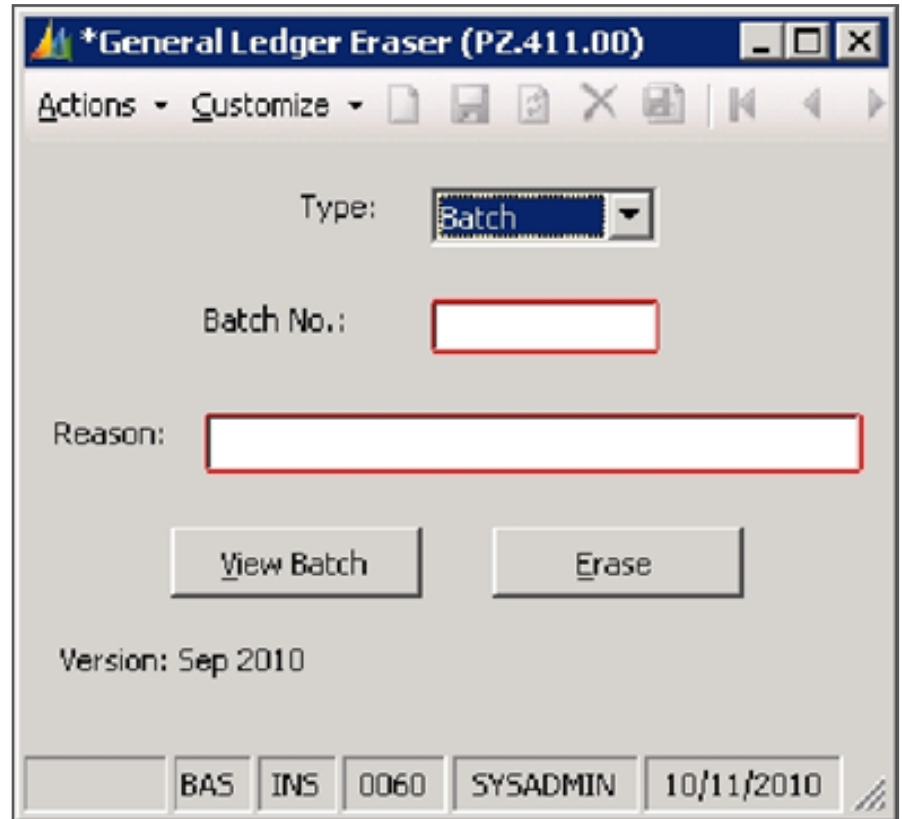

Simply erase the entry type, either a batch or set of items, and then enter the correct entry. Erased document information is stored in an audit file so audit trail is available.

• Maintain security

AP Eraser uses Dynamics™ SL's standard security features, so access can be limited to specified users.

Improve efficiency for your business by tracking, viewing and removing General Ledger entries from within Dynamics™ SL

PSS GENERAL LEDGER ERASER removes all traces of a General Ledger entry while leaving an audit trail in the system.

Erase account information for a batch or list of items from an entry.

Includes the option to view account information before erasure.
