

BENEFITS

● Manage HR more effectively

Quickly and accurately record, track and protect your company's human resources information. Combine PSS Human Resources with the Microsoft Dynamics Payroll module, ensuring accuracy by automatically updating Dynamics SL Employee File.

● Maintain security

Human Resources module uses Dynamics SL Standard Security to limit access to viewers.

● Put your information to work

Human Resource Administration is an add-on to the Dynamics Payroll System that tracks the following:

- Position
- Reviews and Pay History
- Educational and Military History
- Emergency and Spouse
- contacts
- Training and Certifications

● Find the information you need

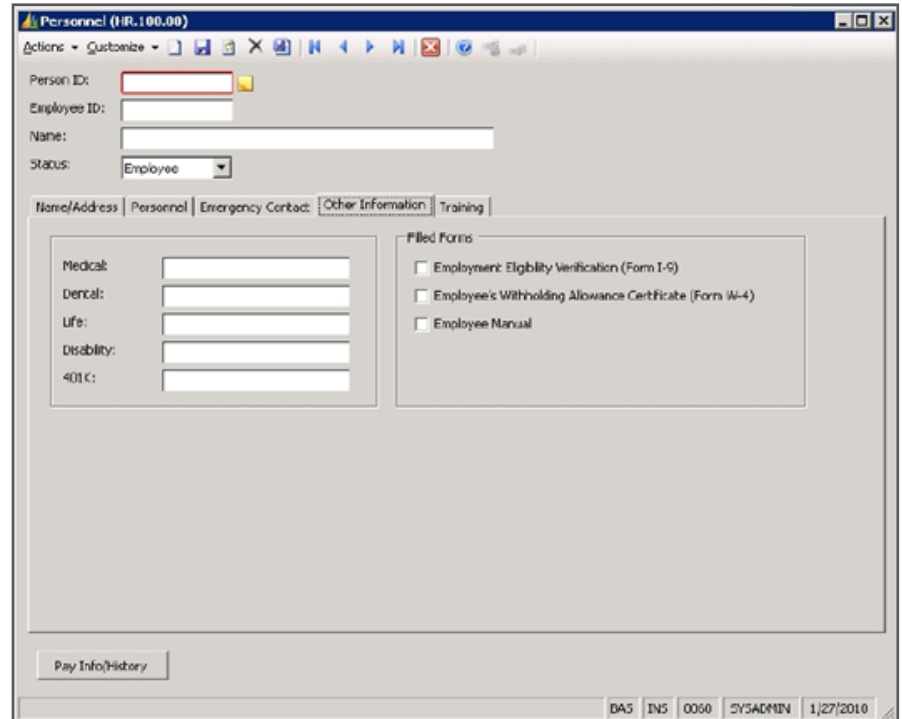

Access data with an intuitive graphical user interface.

Print reports and employment forms:

- Employee Affidavit
- Emergency Contact
- Workers Comp
- Arrangement Direct
- Deposit Authorization Separation
- Employment Eligibility
- Verification Uses Crystal reports and the standard Dynamics SL report interface.

Improve personnel maintenance for your business by tracking, analyzing and managing human resources from within Dynamics SL.

Human Resource Administration enhances Dynamics SL Payroll to include HR information for employees and potential employees.

View HR Information from within SL

Track Human Resource Information

Track information about employees and potential employees. Includes custom fields to allow you to track the data you need.

Training and Certification.

Track classes, dates taken, recertification, renewal requirements and more. Web interface allows employees to view their own training information via the Web.
