

What your colleagues are saying about Integrity ACA: Dynamics SL Edition

"I would like to take a moment to recognize an outstanding team that you have at Integrity Data. I have worked closely with the Support Team, who were outstanding in their help and quick response whenever help was needed (and that was a lot especially after I picked up the process in the middle). I deeply appreciate their wonderful customer service and knowledge that eased the process and released a lot of stress dealing with a new process and knowing that an immediate help is just an email or even a phone call away. Thank you so much for having such an awesome team!"

Nevine Youssef | Accounting and Finance Manager, Care Advantage

"I have been taking advantage of your ACA 201 Webinars, videos and other educational materials. These have been very helpful with the most common sense explanations and examples I have found. Thank you for your commitment to educate your users on this very complicated record keeping requirement."

Karen Laprade | Payroll / Accounting Clerk, Pontotoc Electric Power Association

"As always, thanks for your time. It was a pleasure to work with you and all of your partners in crime. Thank you Integrity Data; you've become one of our 'partners,' you've helped us immensely with these burdensome tasks; we look forward to working with you in 2016 and beyond."

Matt Sparhawk | Payroll, Sparhawk Trucking

"All I can say is, thank God for your software. Also, your support is top-notch, right up there with the best. They stuck by us through difficult questions and all. Most importantly, they made sure I met all the deadlines. Many thanks."

Jeff Roeckel | Controller, Scranton Craftsmen

"I sincerely what to thank you for your patience and perseverance in helping PICO complete our 1094-C and 1095-C processing this year.

"While we had three companies we were working through; we had different challenges with each. You always made yourself available with the busy schedule you maintain and I appreciate that. Your phone support was always polite and you maintained your composure through our many hours of phone calls and go-to-meetings.

"Our last company was completed today and we are set until next year. It will be here before we know it.

"Thanks again Keith, you are great at your job.

"As a side note, your support team is exceptional. Keep up the great work everyone."

"Integrity Data helped our company successfully complete our first year of ACA reporting. I really like the cloud program. It's easy to work with. I'd like to thank Rebecca Hulse in Support. She really knows the software and is very nice to talk to."

Renee Stouffer | HR Administrator, Gottsch Employers Group

"Thank you so much for providing the ACA User Group webinars! These calls are always at great times, very convenient, enjoyable, and – most importantly – useful information is always presented. They are much appreciated."

*Sarah Monke | Payroll Clerk, Fremont Health
A medical center in Nebraska
April 15, 2016*

"Integrity Data's ACA solution was simple to learn and very efficient. I didn't start converting our customers to the ACA software until mid-November and had all 44 converted with forms printed by late February. The software is simple, user friendly, and the support staff is very helpful when help is needed. We also have customers who use other Integrity products and those products have been well received as well. Overall, Integrity Data is the right choice for all of your Microsoft Dynamics GP payroll add-on needs."

Jeffrey Newell | Senior Information System Representative at Central Service Association

"I am very impressed with your ACA Solution. The step-by-step videos were the next best thing to having a consultant in our office walking us through the process. I was also impressed that the videos were updated and the new version answered my questions. I emailed your technical support and received a response in a timely manner as promised. The webinars are yet another way you reach out to us to get us familiar with your product and answer questions we did not even think of yet."

"I want to acknowledge your company's focus on customer satisfaction; I see, value it and benefited from it. Your product was well worth the investment."

Terrie Huckins | Controller at Dallo & Co., Inc.

"During this ACA compliance adventure, there have been many challenging moments, but the Integrity Team has been there at every turn. While I am still not a fan of the healthcare reform initiative, I am a fan of Integrity Data!"

"Thank you for your great product and your phenomenal people."

"The process was easy for me, as all I had to do was download information from our payroll system and upload it to yours. It made me aware of any errors that I need to correct and most, if not all, was something I did wrong.

"Your support team was very helpful in showing me how fill out and use the ACA utilities and reports. It was very much hands off for me as they handled it and instructed me how to do it. Hopefully, I can retain some of that for next year, but, if not, I know I can count on that help again next year."

*Glenn A. Dian | Director of Finance and Human Resources at Railway & Industrial Services, Inc.

"I was amazed at how quickly 1095-Cs were generated once the data is all there. And once generated, you can print them in different file formats and sort orders. It is literally as easy as a few clicks.

"Invaluable to this process was the support I received from the staff at Integrity Data. They were all willing to help, extremely knowledgeable, kind, PATIENT and responsive – besides being a pleasure to talk to!"

*Kelly Harris, CEBS | Benefit Information Specialist with eni (Employee Network Inc.)
An HR technology services provider that is an ACA affiliate of Integrity Data

"Our search for software to meet compliance requirements for ACA regulations was tedious. Our team reviewed several products, and chose Integrity because it could process the information we needed as an ALE and as a Self-Insured Employer.

"Integrity Data's **ACA Compliance Solution** was the best fit for our company because:

1. The software stores dependent information along with start and stop dates.
2. The Year-End Close may be performed as many times as you want to run it.
3. The 1095-C can be edited.

"Integrity Data's support team provides assistance by e-mail and a website with an enormous amount of resources for ACA reporting requirements, FAQs, ACA User Groups webinars, newsletters and Knowledge Base articles.

"Our team has benefited literally by having Integrity support at our fingertips."

*Carol Wright | HR Specialist/Benefits at Greenleaf Nursery
A Park Hill, Oklahoma-based plant wholesaler with operations in three states

"I am assuming a Benefits Manager position after last serving in a benefits role about 5 years ago. Although I have read everything about the ACA I could find over the past few years, there is literally an avalanche of requirements and reporting to learn about quickly.

"Your publications are an invaluable resource to me now and going forward as I continue to get up-to-speed on the ACA."

"You guys are awesome!"

"I love how you guys go above and beyond to help your customers. Recording the ACA User Group webinars helps all clients learn from them."

"Guidance like this is always good."

Nanda DeRoulet | HRIS Analyst, WoodSpring Hotels

"Very happy with this ACA reporting product. I am tech savvy, but know that many HR people are not, and not always so good with math. Should you find yourself in need of a simple product to remain compliant with the ACA reporting requirements, Integrity Data is a great source to come to, to assist."

*Rob Robichaud | Human Resources Director, Western Window Systems
A Phoenix-based designer and manufacturer of custom doors and windows*

"I am so glad I chose to go with your company for an ACA reporting solution.
You guys definitely know what you are doing."

"My payroll company was going to charge \$17,500 and they did not even have it up and running for the Year-End 2015. I received another bid for \$9,500. Your company was so much better priced. I also know that the level of support from the more expensive companies would not have compared with the extensive knowledge and excellent support I received from Integrity Data."

*Maria Hilger | Controller, ACW Corporation
An Arby's franchisee in Delaware*

"When we first discovered all that was going to be involved in reporting data for the Affordable Care Act – ACA, we started checking into software options. Integrity Data was the most knowledgeable on the ACA and was the most affordable. Not only have they been with us every step of the way and timely in their responses to our questions, but friendly and patient when dealing with some of the unique issues that were specific to our company. I would definitely recommend Integrity to anyone looking for a great product, good people backing it up, and at an affordable price."

*Belinda Kornack | Director of Human Resources, Summit Dental Consulting
Eau Claire, Wisconsin*

"I am so glad I found your company and we decided to use your **ACA Compliance Solution**. The ease of use and knowledge of staff has been great. The blog posts and webinars are really helpful, too. I am especially grateful for the real-time updates of the cloud based solution. If we had tried to use the ACA module our higher-ed software was providing, we would not be able to implement updates without ITs help and production downtime."

"Working with Integrity Data has put an end to our 1095-C nightmare. We had been using [another ACA solution], which was moving so slowly we thought we might not meet the deadline.

"Integrity Data's **ACA Compliance Solution** made the process easy, and everyone on staff had the knowledge necessary to make us feel confident in the service. Anytime a representative could not answer a question – they said so (hence your name, Integrity!).

"They would always do the necessary research and get back to us with an answer we could feel good about. Special thanks to Gary Schmidt, who was always patient and pleasant as he worked through the issues we experienced along the way."

*Katherine Coe | Benefits Analyst, AppRiver
An email and website security firm based in Gulf Breeze, Florida*

"This **ACA Compliance** software was very easy to use, and completed the task with very little effort. It gave me more time to focus on other tasks, knowing that Integrity's software handled much of the heavy lifting. Integrity's support team was the backbone of the process. They are trained well, very knowledgeable of all aspects of 1094/1095, and very confident in the process. Their response to my questions and concerns was always quick and they always made me feel like my issue was a priority."

*Thomas E. Reynolds | Human Resources Generalist, Loxahatchee River District
Jupiter, Florida*

"Given the dynamics of our industry, we were looking for software that would integrate with Microsoft Dynamics® GP, manage measurement periods, populate 1095-Cs and handle all aspects of ACA reporting with a user-friendly platform. Integrity Data's **ACA Compliance Solution** completely satisfies every requirement we had identified.

Installation was very easy and while we have used Support a limited amount, they were very quick to respond to our needs and helpful – actually showing me what I needed to know instead of someone talking me through it over the telephone.

We would recommend Integrity Data's **ACA Compliance Solution** to any company that deals with large numbers of variable-hour employees with ever-changing start and stop dates."

*Cheryl Johnson | Benefits Specialist, Manpower
Florida, Iowa, Minnesota and Wisconsin office of the worldwide temporary-help services company*

"We have been very impressed with this software and the Customer Service we have received. This team has done their homework on the ACA and has developed a product that simplifies the tracking we are required to do."

*Karen Wright | Former Controller, Tri-City Baptist Ministries
A church in Chandler, Arizona*

"As a health services provider with several thousand employees, I don't know how we would be managing through this process without the **ACA Compliance Solution**."

"Integrity Data, and their professional services team, has played a vital role in helping support our implementation and compliance with the Affordable Care Act."

*Curtis Fletcher, CFO | Professional Case Management
Denver-based provider of in-home specialty nursing care in seven states*

"Awesome job. Great product. It's very obvious a lot of time and effort has been put into staying on top of the ACA requirements and needs."

Cathy Reichelderfer, CFO | JFC Staffing Companies

"This is a fully integrated solution that is well designed, easy to set up and use. Two thumbs up!"

Dawn Pleil, Software Developer, formerly at CAL Business Solutions

"We have over 700 employees and this **ACA Compliance Solution** will allow us to easily submit all data and required governmental forms needed to meet the ACA rules."

"Support is extremely knowledgeable and can assist our company to get up and running in the least amount of time."

"A godsend for our company!

"We had been searching for a software piece that worked with Microsoft Dynamics GP and assisted with the tracking of hours and the mandatory healthcare reporting requirements. Thankfully, this software answered our prayers. Setup is simple and Support is there when you have questions. I am so relieved that we have this option."

*Amy L. Holz | Chief Financial Officer, Leakas Quality Foods
A Wendy's franchisee in Pennsylvania*

"This **ACA Compliance** reporting solution hit the spot for a key client — a fast-food restaurant franchise with 60 locations, who was proactively preparing to meet the new Affordable Care Act requirements.

"We got an immediate response to our inquiry, a compelling demo, expert training support and implementation to our client's satisfaction."

*Michelle Chahine | Customer Service Manager, Maner Costerisan
A leading accounting and business consulting firm in Michigan*

"It was important to us to find an **ACA Compliance** reporting solution that integrated with our current system and at a reasonable price. Working with our Microsoft partner and Integrity Data, the installation and setup was quick and easy.

"I especially appreciate the opportunity to continue learning about the law and the product through Integrity Data's ACA users-only webinars."
